Family Medicine Core Faculty and/or Assistant Residency Program Director

We seek a board-certified Family Medicine physician to be a core faculty member and/or Assistant Residency Program Director for our recently established 4-4-4 Family Medicine Residency Program in Sumter, South Carolina. The program operates in collaboration with the University of South Carolina School of Medicine, Prisma Health and Tandem Health, a Federally Qualified Health Center.

Sumter is a mid-sized community located a short drive from Myrtle Beach, Hilton Head, Charleston or Columbia. It is brimming with history, character, and charm. The cost of living and affordable housing make it a very attractive place to raise a family. Our city is small enough to preserve that small-town feeling with a number of tree lined streets and beautiful parks.

This position provides the unique opportunity to shape the future of this new rural program focused on developing South Carolina's primary care workforce.

How to Apply:
